

Our institution, founded with a mission to uplift students from marginalized communities, including those from Scheduled Castes (SC) and Backward Classes (BC), represents a profound commitment to social justice, educational equality, and community development. This institution's unique performance, particularly in one area that aligns with its vision, priority, and thrust—empowering disadvantaged communities—highlights its dedication to a broader humanitarian cause. The institution's core philosophy is grounded in the egalitarian teachings of the Namdhari Gurus, who have historically emphasized social reform, equality, and service to humanity, and this ethos naturally extends into the educational mission of the College. Our vision is to provide quality education to all students, irrespective of caste, creed, or gender, and its priority is to uplift underprivileged communities by providing them access to the tools and resources necessary for their social and economic mobility. The thrust of the institution lies in its holistic development approach, which not only emphasizes academic excellence but also character building, moral values, and self-reliance. This is particularly crucial for SC and BC students, who often face systemic barriers to education, such as poverty, social discrimination, and lack of access to educational infrastructure. By providing a supportive and inclusive environment, we help these students overcome such challenges and prepare them to become contributing members of society. What sets this institution apart is its deep commitment to social equality, a principle derived from the teachings of the Namdhari Gurus. The institution goes beyond just providing academic education; it fosters a culture of mutual respect, understanding, and cooperation among students from different caste and class backgrounds. SC and BC students are encouraged to take part in leadership roles, promoting a sense of empowerment. Discrimination of any kind is actively discouraged, and all students are treated with dignity and respect. Addressing the educational needs of SC and BC students is a testament to its vision of social reform and equality. Through its commitment to its vision of

inclusivity and service, the institution continues to be a beacon of hope and progress for rural, marginalized communities.
