

## **Institutional Distinctiveness**

The College emphasizes the need to mainstream the marginalized and weaker sections of students to ensure justice and equity in society. The Mission is to steer the education it offers not only towards the pragmatic goal of employability but also to build a life of the mind and sensitize and orient its students to the service of the community, in the quest for a better life for society and the world that we inhabit. The institution's unique scoring point is that it encourages students to develop their entire personalities to prepare them to handle global issues. To achieve this goal, our college strives to balance the five dimensions of students entering its doors: physical, intellectual, ethical, social, and cultural capabilities. This practice was established to transmit and guarantee that the youth's learning needs are addressed by providing fair access to appropriate learning and skill programs. To ensure a holistic development of students' personalities, the college aims at providing affordable, quality higher education to the rural masses, who mostly happen to be First generation learners. The college has mission to create and empower students who are resourceful, and dedicated in their chosen careers and fields through Quality education practices. Through NSS/ NCC activities we inculcate the qualities of morality and nobility among the students and removing the all socio economic barriers.
